Product: Deep cleansing Shampoo for hair
Commercial Name: **FRAMESI SMOOTHING SYSTEM SHAMPOO**
SHAMPOO FOR HAIR 400ml

Storage standards

Store the product in dry and well-ventilated areas. Keep well away from heat sources. Keep well out of reach of children.

Handling standards

Prior to using the product (where applicable; for example hair coloring products), protect the hands by applying a barrier cream or by wearing proper close fitting plastic gloves covering the forearms during the entire process i.e. application and rinsing. All tools and accessories must be perfectly clean. Avoid nickel instruments. Operate in well-ventilated areas.

Emergency intervention

1. First Aid in case of:

- **Eye / skin contact:** Rinse immediately with plenty of water. In case of persistent irritation, consult a doctor.
 - **Accidental ingestion:** Drink large amounts of water, call a doctor.
 - **Inhalation:** No problem in normal conditions. Should inhalation occur due to process not being carried out in well ventilated areas, and in the presence of high humidity, the person should be conducted into the open air. In cases of persistent irritation of the primary respiratory organs, call a doctor.
- 2. Loss or leak:** If possible collect and discard the leaked product and wash the area with water. Never attempt to put any leaked product back into the original container i.e. any leaked product should not be used.
- 3. Classification of waste products:** The empty bottles- which contained the product- are not classified as toxic or harmful waste products. The non-utilized bottles (damaged, etc.) should be disposed of in accordance with the law on waste products.

Fire: Use water or CO₂.

The present information is based on the present level of knowledge about the product and will be brought up to date when new data arises.
